THE MINISTER OF PARLIAMENTARY AFFAIRS AND THE MINISTER OF INFORMATION AND BROADCASTING (SHRI H. K. L. BHAGAT): (a) The primary service transmitter at Bombay broke down on 3rd December 1987 and on 1st and 19th January, 1988 for short durations due to failure of certain critical components. The transmitter was promptly attended to and the service restored. Besides, a new transmitter has been installed to replace the existing transmitter which has completed its normal life span. The new transmit, ter is under test at present.

(b) and (c) Dust particles and pollution do affect the performance of electronic equipment. However, all TV installations are protected from out side atmosphere and are provided with air filters to avoid dust entering the equipment. Besides, regular periodic cleaning is carried out to keep the equipment free of dust and other extraneous matters.
